

ERIKA MIGUEL

(914) 297-7519 · ERIKA@ERIKAMIGUEL.COM

EDUCATION

Smith College

Bachelor of Arts, Major in Computer Science
September 2011 - May 2015

Northampton, MA

King's College

Study Abroad, Spring Term
January 2014 - May 2014

London, UK

WORK EXPERIENCE

Perka

DevOps Engineer
April 2016 – Present

New York, NY

- Sole DevOps Engineer on the Platform team, responsible for 99% uptime of prod systems and empowering developers to improve our architecture
- Monitoring using open source tools: Pingdom, Kibana, and Sensu.
- Build application infrastructure with AWS and Puppet; blue-green deploys with Bamboo

Goldman Sachs

Global Investment Research - Analyst Software Developer
July 2015 – April 2016

New York, NY

- DevOps engineering role with global team in Investment Research
 - Automating Linux and Windows deployment using internal tools.
 - Migrating applications to a new configuration service. (Internal tools, Zookeeper)
 - Coding dashboard component to track projects without testing evidence (Java, React)
- Enhanced a legacy application in Prime Services division to reduce production access to trade files. Developed the upload feature for file processing with access controls (Java, AngularJS, JUnit).

Goldman Sachs

Global Investment Research - Intern Software Developer
May 2014 – August 2014

New York, NY

- Developed front-end on health check monitoring web app for investment research applications without prior experience in web development (AngularJS, Java, HighCharts).
- The app served as proof of concept for future web applications built by the support team, who continued the project after the internship ended.

PIMCO

Operations - Intern
May 2013 – August 2013

New York, NY

- Roles determined on ad hoc basis: manually logged physical inventory of tax documents, maintained contacts spreadsheets in Excel, automated weekly fixed income and foreign exchange reports using Oracle SQL and MS Report Builder.
